

Corporate Presentation

May 2010

Disclaimer

The information contained in this presentation may include statements which constitute forward-looking statements, within the meaning of Section 27A of the U.S. Securities Act of 1933, as amended, and Section 21E of the U.S. Securities Exchange Act of 1934, as amended. Such forward-looking statements involve a certain degree of risk and uncertainty with respect to business, financial, trend, strategy and other forecasts, and are based on assumptions, data or methods that, although considered reasonable by the company at the time, may turn out to be incorrect or imprecise, or may not be possible to realize. The company gives no assurance that expectations disclosed in this presentation will be confirmed. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those in the forward-looking statements, due to a variety of factors, including, but not limited to, the risks of international business and other risks referred to in the company's filings with the CVM and SEC. The company does not undertake, and specifically disclaims any obligation to update any forward-looking statements, which speak only for the date on which they are made.

Board Advisory Committees

Executive Board

Each officer with more than 20 years experience in the sector

*The Company's Board of Directors have decided that FIBRIA's CEO, Carlos Augusto Lira Aguiar, will accumulate the position of Treasury and Investor Relations Officer until further decision.

Market Positioning

Creation of a Winning Player

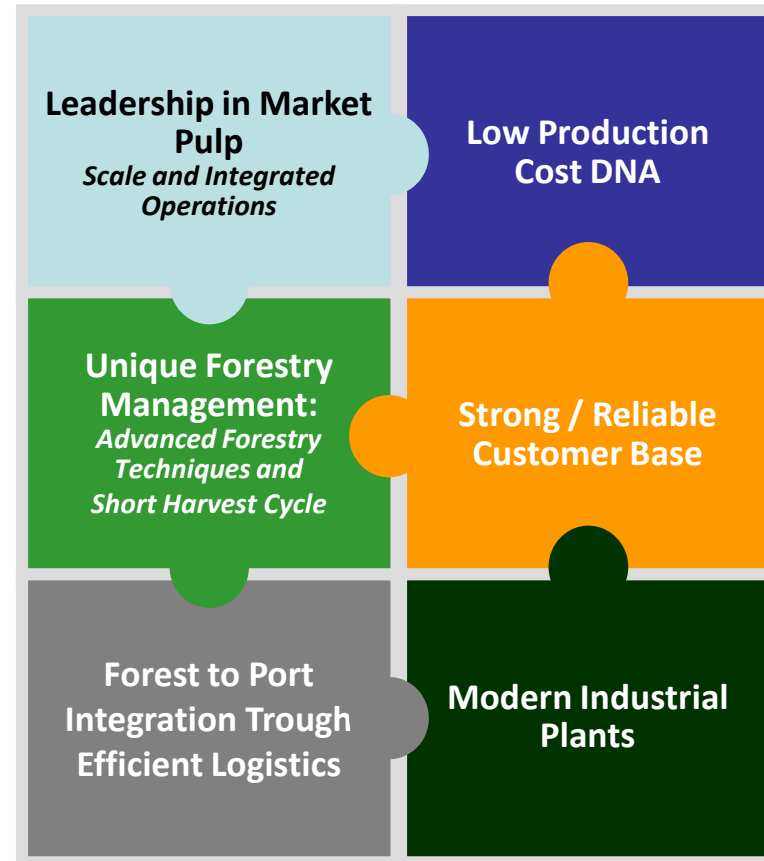

Superior Asset Combination

Competitive Strengths

- Pulp production capacity: 5.4 MT / year
- Paper production capacity: 358 kT / year
- Total area: 1.0 million ha⁽¹⁾ | Eucalyptus plantation: 585 thousand ha⁽¹⁾
- 4 plants and operation of 3 port terminals, including the only specialized wood pulp terminal in Brazil, owned by us
- High yield in eucalyptus production (avg 45 m³/ha/year) and certified forests
 - Short harvest cycle: 6 years vs. 25-70 years in Southern U.S., Canada and Scandinavia

Data as of March 31, 2010.

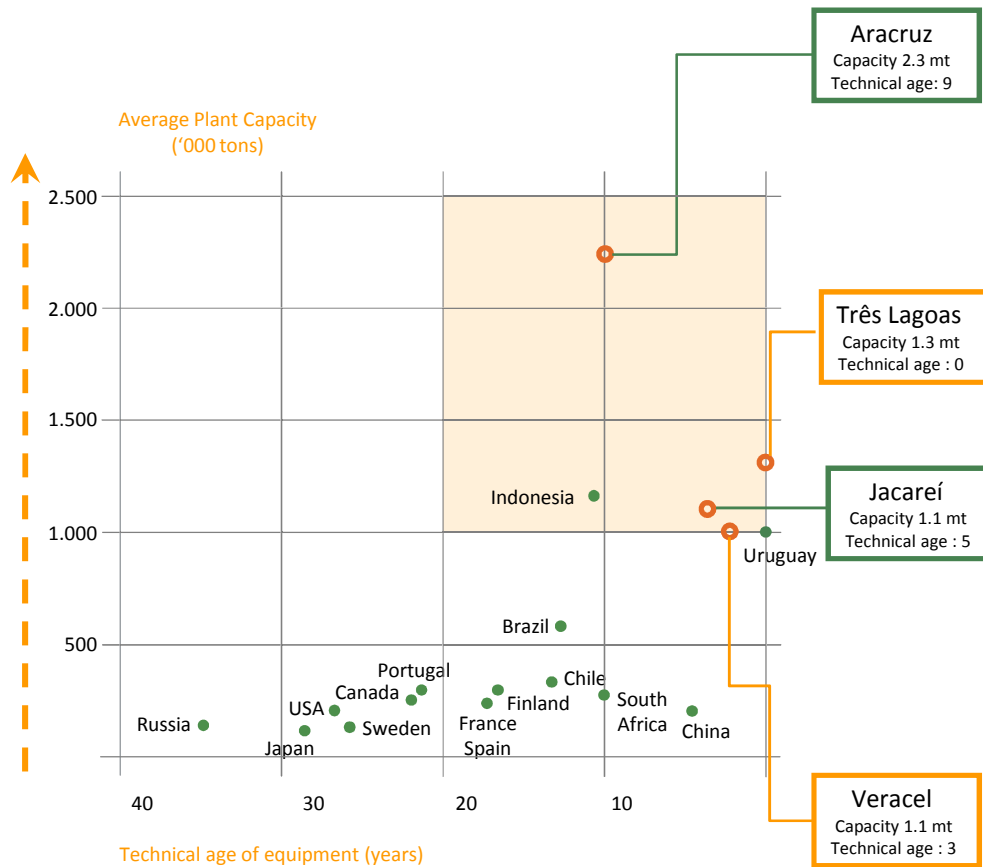

(1) Does not include partnership program which represents 127 thousand ha.

Unique Brownfield Potential Growth

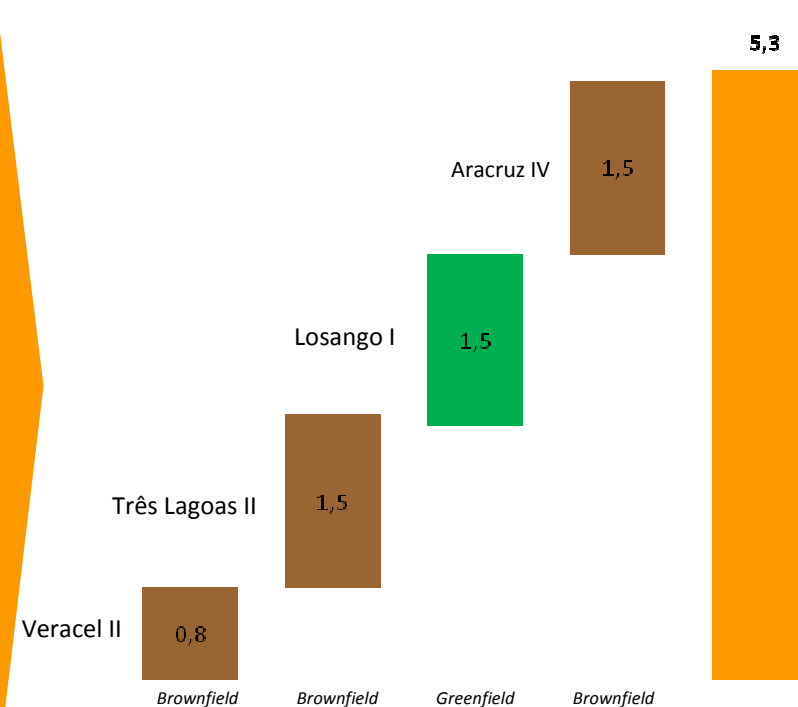

Fibria has the Best Sites Ready to Almost Duplicate Capacity

Historical and Planned Capacity Increase

Best sites for additional capacity

Capacity 1979 - 2009 CAGR: 3.6%

...Expansion...

Undisputable Leadership in the Global Market Pulp

Dominant Position in a Growing Market

Pulp Production Capacity
